### 4" Stainless Steel Pump - 50Hz | 60Hz

COACH Brand is manufactured high grade stainless steel pump which is anti-corrosive in nature, light weight and having better pump efficiency. Stainless steel pump parts are welded with automatic pulsating machine to give better surface finishing and leak proof which gives better efficiency and consistent performance. Pumps have better life in sandy water area.

#### Salient Features :

- Bowl and impeller SS Material which give protection against sand also having better surface finish giving higher efficiency.
- 100% high grade stainless steel inside and outside provides maximum reliability.
- Better life in sand and other abrasives as well as salty water application.
- Light weight which is easy to install.
- Stainless Steel Construction -rust free-hygienic water supply.
- Inlet strainer prevents particles over a certain size from entering the pump.
- Additional necking fitted on impeller which allows necking to be replaced at time of repairing.

#### Specifications :

	50Hz	60Hz
• Nominal Diameter	4"	4"
• Speed in RPM	2900	2900
• Maximum Head	544 Mtr.	511 Mtr.
• Maximum flow	315 LPM	378 LPM
• Immersion	1 Mtr. Minimum	1 Mtr. Minimum

Performance tolerance can be +/- 7%

#### Applications :

- Sprinkler and drip Irrigation
- Civil and Industries
- Firefighting system
- Agriculture
- Buildings | Hospitals | Hotels

Sprinkler and Drip Irrigation
